

EURO 78/92

Wood is still the best most durable , warmest and asthetically pleasing material for windows and the Europa range is our original and most popular tilt & turn window , for the best U values and sound reduction you cannot beat. We can use a range of profiles and beadings to suit any type of building both new and old.

92 Euro

78 Euro / U_w=0,99 W/m²K

- Wide choice of wood species: Pine (Redwood), Fir, Oak, Larch, Eucalyptus, Meranti, Mahogany and Accoya wood that matches or exceeds the durability, stability and beauty of the very best tropical hardwoods .
- Only laminated knot free wood is being used to eliminate twisting and warping.
- SIEGENIA TITAN AF window hardware with „Comfort Mushroom cam“ offers high functionality and security with a top quality design.
- Water tightness is ensured by 3 TPE (thermoplastic elastomer) weather seals to ensure 600 Pa (E1200) test pressure.
- Triple glazed units with two LOW-E (low emissivity) panes and warm edge spacer bring the U_g value down to 0.5 W/m²K and saves 55 % of the heat lost through the edge of the glass unit therefore guarantees the most efficient window on the market
- Up to 10 years finishing guarantee is ensured by environmentally friendly water based finishing materials, including impregnation, primer and two layers of final coat.
- We provide all kinds of Bespoke solutions to include – bays, semi-circles, triangular, fully arched, pointed arch, door and window combinations.
