BM TRADA

Our range of flush casement timber windows have been designed with a range of innovative design features that combine traditional aesthetics with modern technology. This product is ideally suited to conservation making them one of most popular timber window products. A range of cill, frame thickness, finish and ironmongery options are available together with your choice of opening styles to include side hung, top hung and fully reversible , we also use multi point locking espagnolette to achieve the highest security and earther tightness available on the market.
